T E C H N I C A L B U L L E T I N

DATE: Thursday, February 23rd, 2006 **No:** SB-060201
TO: Metro Roof Owners **Page** 1 of 1
FROM: Metro Technical Services Division
SUBJECT: Walking on Your Roof

General Information

Thank you for choosing a Metro Roof System to protect your home, the following information will be useful to enhance the life of your roof. For safety reasons, we do not recommend walking on your roof. Call your professional roofing contractor instead. Periodically sub-trades need to get up on your roof, and the following will help them do so in a safe manner.

General Care & Maintenance of Your Metro Roof

In areas of low annual rainfall and to maintain that new fresh look you may want to periodically rinse the roof surface with a garden hose. This will help maintain the appearance of your roof and keep it clean and debris free. Failure to wash the roof surface in this manner WILL NOT affect your material warranty.

Metro Shingle™ - This low-profile single course panel easily supports walking on the roof

Metro Shake-II™ - The deep wood grain impressions create a strong panel that can be walked on by placing your feet over the nose area (Front edge) of each course where it overlaps with the panel beneath.

Metro Tile-II™ - The scalloped shape allows walking on the panel by placing your feet in the wide scalloped sections at the nose (Front edge) where the panel overlaps the one beneath.

Metro Roman Tile™ - The timeless look of true Mediterranean tile, Roman can be walked on by Placing your feet in the curved lower sections of the panel at the nose (Front edge) where it overlaps the Panel beneath.
