## **NEW** **SMART-Hand Tool Kit**

Metro's on-site installer training program spear-headed by our resident trainer Daniel Detamore has driven us to offer a unique line of specialized hand tools for the dedicated Metro Stone-Coated Steel Installer.

The Metro SMART-Hand Tool Kit is a must for focused installers of our system and is centered on the small but powerful 1/4" 12-V Impact Driver tool to set those screws into our system just right.

The attached flier is available now to help promote this new line of specialty tools across the Metro distribution network.

Ask your local Metro distributor for more information and cost of the Metro SMART-Hand Tool Kit and make your crews happy.

The new SMART-Hand Tool Kit part numbers are noted below. (The Kit parts WILL be able to be purchased as individual items as well as the complete kit.

The Metro SMART-Hand Tool kit is designed specially for the stone-coat steel roof installer

## Innovative Design **BIG on POWER!**

The Metro SMART-Hand Tool Kit contains all the hand tools your crews need for a smooth install. Add a SMART-Hand Tool kit to your crew's toolbox and they'll feel like they can tackle any Metro job!

The kit consists of a revolutionary and innovative designed 12-Volt Impact Driver that may be small but is big on power. Standard 120-V Charger and a spare battery. It even comes with a full 1/4" chuck if you need to drill a few holes. The rest of the kit contains snips & hand seamers that are a necessity during an install, along with other safety items for the installer.

Contact Metro Roof Products or a Metro distributor near you to check out the Metro SMART-Hand Tool Kit for your next Metro Stone-Coat install. You'll be glad you did.

**WORK SMART** with a SMART-Hand Tool Kit from Metro Roof Products

## Tried and Tested

Metro’s On-Site Technical Trainer – Daniel Detamore has put these tools through their paces on multiple Metro training sites from California to Florida over the last few months and is impressed with their performance.

“I was a little skeptical at first,” noted Daniel, “given the Impact Driver’s size and 12-Volt power supply, but I found it to be perfect on the roof due to its small size and with a surprisingly good battery life.”

He also said, “The Tool Kit Bag is a great addition to any installers tool-box as it’s a great way to centrally locate all the hand tools you use on a Metro install, its sturdy construction has held up to being dragged around the roof and its canvas material stays put when placed on a pitched roof.”
