NEW FL Tile Rake Metal – Stone-Coated Finish

We have upgraded our Tile Rake metal flashing to a Stone-Coated version with a full 2”-inch flange that seats onto the roof deck to satisfy Florida installers.

This new part uses substantially more metal and being stone-coated, is priced accordingly, however the new part ensures a stone-coat finish up the rake edge to marry with stone-coated fascia.

The new FL Tile Rake Metal can be used with Metro Tile, Roman or Shake panels at the rake to perfectly align rake trim caps and provide a stone-coat finish to this area. The new Tile Rake Metal flashing in standard stone-coat colors will be in production during June-July 2007. The new part number is noted below.

ITEM X LENGTH	PN-# - XX = Color	INVOICE INFO
Existing PAINTED - Tile Rake Metal Flashing X 120"	3236-XX	
NEW Stone-Coated 'FL Tile Rake Metal' Flashing X 79"	3112-XX	'FL Tile Rake Metal'

Metro will carry a small quantity of the old PAINTED shape as we transition to this new version. Make sure you define which parts you need especially if you are matching to your inventory for job-lots.

Due to the differences between each part it's recommended that you do not mix the two in inventories or on job-lots.
